Bailey Bullock is an urban planner specializing in transportation and geographic information systems (GIS). Bailey holds a Bachelor of Arts in Sociology with a minor in Linguistics and a Certificate in Teaching English to Speakers of Other Languages from Mississippi State University, which led her to spend two years as an English Teaching Assistant at universities in Colombia through the U.S. Department of State's Fulbright Program. Her experiences with car-free mobility in Colombia motivated her to pursue the Master of Urban and Regional Planning, Master of Science in Transportation, and Graduate Certificate in GIS at the University of New Orleans. As a graduate research assistant at the UNO Transportation Institute, Bailey participated in research and projects related to active transportation infrastructure, community engagement, intermodal chassis, and international trade. Currently, Bailey practices as an urban planner with ViewPro GIS, empowering planners to leverage sophisticated tools to guide sustainable and equitable development in their communities.
